

SINGLE PORT CHARGING

Keystone module USB-C 5V 3A charger

Features and benefits:

- A charger with the Keystone mounting standard equipped with one USB Type C port for charging various types of electronic devices, such as smartphones, etc. Could support the PD fast charge function.
- Configuration from various USB chargers without limits: your own preferences by choosing the number and type of USB chargers.
- The module design of the USB chargers allows for assembly in a „wall“ or „furniture“ in many places, e.g., in offices, homes, hotels, universities, or conference rooms.
- Convenience and space-saving: no need to connect and disconnect device from the socket like a traditional USB power supply; only plug in the cable to save space.
- Simple assembly in various housings and quick connection to the electrical installation.

Product specifications:

Number of USB ports	1 x USB-C
Product ID and color	2808-2 ○ white (RAL9016) 2808-1 ● black (RAL9017)
Nominal input voltage	110–240 V AC 50/60 Hz
Nominal input current	0,35 A max.
Nominal output current	USB-C: 5 V \rightarrow 3 A, 9 V \rightarrow 2 A, 12 V \rightarrow 1,5 A
Output power	PD 20 W max.
Average active efficiency	86%
Protections	OCP / SCP / OVP / OTP
Ingress protection code	IP20
Assembly	Keystone snap-in design to fit in, e.g., adapters, faceplates, various housings
Housing material	PC plastic
Dimensions	43,8 x 22 x 45,1 mm
Weight	0,03 kg
Quantity per package	5/10 pcs.
